

Position Statement
on
Medical Provider Taxes
(Approved by the Board of Directors August 7, 2010)

The American Academy of Dermatology Association (AADA) vigorously opposes any tax or assessment on physician services or revenues, physician-owned facilities, and “pass-through” or direct taxes on medical services. The AADA strongly believes the imposition of these taxes discriminates against physicians and their patients and has an adverse effect on both the quality of care and access to health care services.
