1 **Definition:** For purposes of Key Leader disclosures, the definition of direct financial relationship is a compensated relationship held by an individual that should generate an IRS Form W-2, 1099 or equivalent income report. Key Leaders may provide uncompensated service to for-profit companies and accept reasonable travel reimbursement in connection with those services. Key Leaders may accept research support as long as grant money is paid to the institution or practice where the research is conducted, not the individual. Compensation (e.g., royalties) from intellectual property rights does not need to be divested.
