E – POSTER PRESENTER SCHEDULE

HALL A

CATEGORY: Acne
TITLE: A Meta-analysis to Evaluate the Efficacy and Safety of Adapalene-Benzoyl Peroxide Topical Gel in Black Subjects with Mild or Moderate Acne
TIME: Saturday from 8:00am to 8:05am at Center 1

CATEGORY: Acne
TITLE: A psychological intervention for people with acne excoriee: A case series.
TIME: Saturday from 8:05am to 8:10am at Center 1

CATEGORY: Acne
TITLE: ACNE AND STRESS: A COMPLEX INTER-RELATIONSHIP
TIME: Saturday from 8:10am to 8:15am at Center 1

CATEGORY: Acne
TIME: Saturday from 8:15am to 8:20am at Center 1

CATEGORY: Acne
TITLE: Are tetracycline resistant propionibacterium acnes increasing in our acne community?
TIME: Saturday from 8:20am to 8:25am at Center 1

CATEGORY: Acne
TITLE: Biomarker Expression Reflects the Cyclical Nature of Rosacea in Subjects Treated with Oral Doxycycline Modified Release
TIME: Saturday from 8:25am to 8:30am at Center 1
CATEGORY: Acne
TITLE: Characterization of Patients’ Quality of Life and Experience in the Course of Acne Treatment
TIME: Saturday from 8:30am to 8:35am at Center 1

CATEGORY: Acne
TITLE: Common reasons why acne patients call the office
TIME: Saturday from 8:35am to 8:40am at Center 1

CATEGORY: Acne
TITLE: Common Use of Prescription Off-Label Therapy for Acne in the Pediatric Population <12 years old
TIME: Saturday from 8:40am to 8:45am at Center 1

CATEGORY: Acne
TITLE: Effectiveness of Adapalene/BPO Gel in the First Four Weeks of Treatment in Acne Patients
TIME: Saturday from 8:45am to 8:50am at Center 1

CATEGORY: Acne
TITLE: Efficacy and Safety of Subantimicrobial Dose, Modified Release Doxycycline 40 mg vs Doxycycline 100 mg vs Placebo in the Treatment of Severe Acne
TIME: Saturday from 8:50am to 8:55am at Center 1

CATEGORY: Acne
TITLE: Efficacy and Tolerance of a Novel Topical Composition on Persistent Redness observed in Patients treated with Topical or Oral Therapy for Papulopustular Rosacea
TIME: Saturday from 8:55am to 9:00am at Center 1

CATEGORY: Acne
TITLE: Improvement in Atrophic Acne Scars by Topical Adapalene (0.3% Gel)
TIME: Saturday from 9:00am to 9:05am at Center 1
CATEGORY: Acne
TITLE: Long-Term Efficacy & Tolerance of a Sonic Brush & Salicylic Acid Cleanser for Cleansing Acneic Skin
TIME: Saturday from 9:05am to 9:10am at Center 1

CATEGORY: Acne
TITLE: Multicenter, Randomized, Double-blind, Placebo-controlled Evaluation of Rosacea Related Inflammatory Biomarkers in Papulopustular Rosacea Adults Treated With Doxycycline 40 mg Modified Release
TIME: Saturday from 9:10am to 9:15am at Center 1

CATEGORY: Acne
TITLE: Novel Over-the-Counter Hydrogen Peroxide Based Acne Kit in Treating Acne: Randomized, Controlled, Multi-Center Study of a Hydrogen Peroxide-based Acne System versus the Benzoyl Peroxide-based Acne System in the Treatment of Mild to Moderate Acne Vulgaris
TIME: Saturday from 9:15am to 9:20am at Center 1

CATEGORY: Acne
TITLE: Overall Tolerability of Epiduo from a Pooled Data Analysis
TIME: Saturday from 9:20am to 9:25am at Center 1

CATEGORY: Acne
TITLE: Papular scars: an addition to the acne scar classification scheme with an exemplary case report
TIME: Saturday from 9:25am to 9:30am at Center 1

CATEGORY: Acne
TITLE: Quality of life in adult women with acne treated with two different approaches
TIME: Saturday from 9:30am to 9:35am at Center 1

CATEGORY: Acne
TITLE: Quality of life of patients with severe acne before and after treatment with peroral isotretinoin
TIME: Saturday from 9:35am to 9:40am at Center 1
CATEGORY: Acne
TITLE: The prevalence of metabolic syndrome in patients with hidradenitis suppurativa
TIME: Saturday from 9:40am to 9:45am at Center 1

CATEGORY: Acne
TITLE: Tolerability and Performance of a Moisturizer with SPF 30 in Acne Subjects undergoing Treatment
TIME: Saturday from 9:45am to 9:50am at Center 1

CATEGORY: Acne
TITLE: Treatment Failure of Patients Using Topical Acne Treatments: an Observational Retrospective Cohort Study
TIME: Saturday from 9:50am to 9:55am at Center 1

CATEGORY: Acne
TITLE: Treatment Patterns and Costs Associated with Acne in the United States
TIME: Saturday from 9:55am to 10:00am at Center 1

CATEGORY: Acne
TITLE: Treatment Patterns and Costs Associated with Rosacea in the United States
TIME: Saturday from 10:00am to 10:05am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: A Full Face Study Evaluating the Safety and Efficacy of the Lignin Peroxidase Pigment Lightening Agent in Skin Type III-V.
TIME: Saturday from 10:05am to 10:10am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: A novel 'system' to aid the prevention of stretch marks during pregnancy: Results of a clinical trial, using a combination of a maternity support device and synergistic cosmetic formulations
TIME: Saturday from 10:10am to 10:15am at Center 1
A prospective split-face double-blind randomized placebo-controlled trial to assess the efficacy of vitamin C and Ferulic acid serum post fractional ablative laser for skin rejuvenation
TIME: Saturday from 10:15am to 10:20am at Center 1

A Randomized, Evaluator-Blinded, Controlled Study of the Effectiveness and Safety of Small Particle Hyaluronic Acid plus Lidocaine (SPHAL) for Lip Augmentation
TIME: Saturday from 10:20am to 10:25am at Center 1

CLINICAL EVALUATION OF A TOPICAL TREATMENT WITH ASCORBYL TETRAISOPALMITATE NANOENCAPSULATED, RETINOL AND GLYCOLIC ACID IN PHOTOAGED HUMAN SKIN
TIME: Saturday from 10:25am to 10:30am at Center 1

Clinical Evaluation of the Efficacy and Tolerance of a Body Gel in Conjunction with Laser Hair Removal on the Legs
TIME: Saturday from 10:30am to 10:35am at Center 1

Clinical Evaluation of the Tolerance and Efficacy of a Topical Tightening Treatment in Conjunction with a Radiofrequency Procedure
TIME: Saturday from 10:35am to 10:40am at Center 1

Components of an over-the-counter anti-aging cosmetic product result in partial repair of photoaged skin as assessed by a short-term in vivo patch test assay.
TIME: Saturday from 10:40am to 10:45am at Center 1
CATEGORY: Aesthetic Dermatology
TITLE: Duration of Effect by Injection Volume and Facial Sub-Region for a Volumizing Hyaluronic Acid Filler in Treating Mid-Face Volume Deficit
TIME: Saturday from 10:45am to 10:50am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: Efficacy of a total skin care approach using a combination of an anti-aging serum and a cream comprising a complex of growth factors for skin rejuvenation
TIME: Saturday from 10:50am to 10:55am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: Efficacy of incobotulinumtoxinA for treatment of glabellar frown lines: a post-hoc pooled analysis of two randomized, placebo-controlled Phase III trials
TIME: Saturday from 10:55am to 11:00am at Center 1

CATEGORY: Aesthetic Dermatology
TIME: Saturday from 11:00am to 11:05am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: Efficacy, Safety, and Subject Satisfaction of Pain Management with a Self-occlusive Topical Anesthetic Cream for Dermal Filler Injections
TIME: Saturday from 11:05am to 11:10am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: Evaluation of a sonic applicator on skin elasticity & wrinkle analysis compared to manual application & performance with two skin care products.
TIME: Saturday from 11:10am to 11:15am at Center 1
CATEGORY: Aesthetic Dermatology
TITLE: Evaluation of a sonic brush, cleanser, & clay mask on deep pore cleansing & appearance of facial pores through a new image analysis software methodology.
TIME: Saturday from 11:15am to 11:20am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: Evaluation of safflower oil on cellulitis and localized fat
TIME: Saturday from 11:20am to 11:25am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: Evolution of Facial Aesthetic Treatment Over 5 or More Years: An International, Retrospective, Cross-Sectional Analysis of Continuous OnabotulinumtoxinA Treatment
TIME: Saturday from 11:25am to 11:30am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: Extract from Cryptomphalus aspersa’s eggs significantly promotes skin homeostasis and migration and survival of skin cells in vitro
TIME: Saturday from 11:30am to 11:35am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: Improvement in facial skin appearance by a cosmetic treatment regimen with skin energizing technology: a full face clinical study
TIME: Saturday from 11:35am to 11:40am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: Improvement in skin tone concerns by a 3-step cosmetic treatment regimen: a full face clinical study
TIME: Saturday from 11:40am to 11:45am at Center 1

CATEGORY: Aesthetic Dermatology
TITLE: MESOTHERAPY FOR SKIN REJUVENATION: LONG TERM ULTRASOUND IMPROVEMENT OF THE SUBEPIDERMAL LOW-ECHOCENIC BAND
TIME: Saturday from 11:45am to 11:50am at Center 1
Methods of assessing cleansing efficacy of a sonic skin care brush.

Saturday from 11:50am to 11:55am at Center 1

Multicenter Pivotal Study of the Safety and Effectiveness of Controlled Tissue Release for the Treatment of Cellulite

Saturday from 11:55am to 12:00pm at Center 1

Oral administration of Pycnogenol associated with sunscreen improve clinical symptoms of Melasma

Saturday from 12:00pm to 12:05pm at Center 1

Platelet Rich Plasma (PRP) and Fractional CO2 Laser Combination Treatment for face rejuvenation

Saturday from 12:05pm to 12:10pm at Center 1

Results from a pivotal study on ArteFill for treating acne scars

Saturday from 12:10pm to 12:15pm at Center 1

Subject-Reported Outcomes Over 2 Years with a Volumizing Hyaluronic Acid Filler for Mid-Face Volume Deficit

Saturday from 12:15pm to 12:20pm at Center 1

The Ability of a New Proprietary Onion Extract Gel to Reduce the Appearance of Scars: A Randomized, Controlled Study

Saturday from 12:20pm to 12:25pm at Center 1
CATEGORY: Aesthetic Dermatology
TITLE: The Efficacy, Safety, and Subject Satisfaction of Pain Management of a Self-occlusive Topical Anesthetic Cream During and After Filler Injections for the Correction of Nasolabial Folds
TIME: Saturday from 12:25pm to 12:30pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: A Split Face Evaluation of a Lignan Peroxidase Pigment Lightening Agent Compared to No Treatment and 4% Hydroquinone
TIME: Saturday from 12:35pm to 12:40pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: ANTIAGING TREATMENT OF PERIORBITAL AND PERIORAL FINE LINES AND WRINKLES WITH A HOME-USE 1440 nm LASER
TIME: Saturday from 12:40pm to 12:45pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: Clinical Efficacy and Tolerance of a Novel Antioxidant Night Treatment Containing Resveratrol, Baicalin and Vitamin E on Women with Mild to Moderate Photo-Damaged Facial Skin
TIME: Saturday from 12:45pm to 12:50pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: Clinical Evaluation of the Efficacy and Tolerance of a Body Gel in Conjunction with Laser Hair Removal on the Legs
TIME: Saturday from 12:50pm to 12:55pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: Clinical Studies Demonstrate the Capacity of a Novel Emulsion to Improve Facial Skin Features Associated with Dryness and Photodamage
TIME: Saturday from 12:55pm to 1:00pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: Efficacy Comparison of a Cosmetic Exfoliation System with Professional Microdermabrasion
TIME: Saturday from 1:00pm to 1:05pm at Center 1
CATEGORY: Aging/Geriatrics
TITLE: Evaluation of the Efficacy of a Facial Lotion in Females with Stressful Lifestyles
TIME: Saturday from 1:05pm to 1:10pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: Immunohistological Analysis of Biopsies from a Double-blind, Vehicle controlled, One Year Clinical Study on 0.1% Stabilized Retinol as an Anti-aging Technology
TIME: Saturday from 1:10pm to 1:15pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: Improved Appearance of Facial Hyperpigmentation with Use of a Cosmetic Moisturizer Containing N-acetyl glucosamine and Niacinamide
TIME: Saturday from 1:15pm to 1:20pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: Improved Appearance of Facial Wrinkles in Post Menopausal Women with Use of a Cosmetic Moisturizer Containing Specifically Prepared Artichoke Extract
TIME: Saturday from 1:20pm to 1:25pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: In vivo multiphoton microscopy evaluation of long-term effects of Retinol and Retinoic Acid on photodamaged skin: a 1 year randomized, double-blind, controlled study
TIME: Saturday from 1:25pm to 1:30pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: In vivo short-term effect of tetra-hydro-jasmonic acid upon the pigmentation of photodamaged skin
TIME: Saturday from 1:30pm to 1:35pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: Mitigation of dysfunctional cellular bioenergetics in dermal fibroblasts by niacinamide under oxidative stress conditions
TIME: Saturday from 1:35pm to 1:40pm at Center 1
CATEGORY: Aging/Geriatrics
TITLE: Short-term and non invasive assessment of anti-aging effects of Retinol 0.3% and Retinoic Acid 0.025% using in vivo multiphoton microscopy
TIME: Saturday from 1:40pm to 1:45pm at Center 1

CATEGORY: Aging/Geriatrics
TITLE: Topically applied human like Epidermal Growth Factors in aging skin: Randomized, placebo controlled trail by evaluating skin physiology and skin surface parameters.
TIME: Saturday from 1:45pm to 1:50pm at Center 1

CATEGORY: Arts, History, & Humanities of Dermatology
TITLE: Anthropodermic Bibliopegy: Lessons from a Different Sort of Dermatologic Text
TIME: Saturday from 1:55pm to 2:00pm at Center 1

CATEGORY: Arts, History, & Humanities of Dermatology
TITLE: How common is "common?" The frequency and precision of the terms "common" and "rare" in the dermatologic literature
TIME: Saturday from 2:00pm to 2:05pm at Center 1

CATEGORY: Basic Science
TITLE: A Novel Lipid Complex That Promotes Skin Hydration and Barrier Function
TIME: Saturday from 2:10pm to 2:15pm at Center 1

CATEGORY: Basic Science
TITLE: A Potential Association Between Soluble Adenylyl Cyclase and Ras Activation in the Control of Metabolism in Transformed Fibroblasts
TIME: Saturday from 2:15pm to 2:20pm at Center 1

CATEGORY: Basic Science
TITLE: Bioinformatics Approaches to Understand the Molecular Basis of Skin Aging and In Vitro Effects of Cosmetic Ingredients
TIME: Saturday from 2:20pm to 2:25pm at Center 1
CATEGORY: Basic Science
TITLE: Chronological Changes in Facial Wrinkles and Texture in a Longitudinal Study
TIME: Saturday from 2:25pm to 2:30pm at Center 1

CATEGORY: Basic Science
TITLE: Confirmation of Shampoo Mildness in Human Skin Culture Models
TIME: Saturday from 2:30pm to 2:35pm at Center 1

CATEGORY: Basic Science
TITLE: Dermatological assessment of the skin tolerance of a new male razor used in body shaving
TIME: Saturday from 2:35pm to 2:40pm at Center 1

CATEGORY: Basic Science
TITLE: Dermatological assessment of the skin tolerance of shaving with a 5-blade razor with additional lubrication by women with sensitive skin.
TIME: Saturday from 2:40pm to 2:45pm at Center 1

CATEGORY: Basic Science
TITLE: Durable Rough Skin Phantoms for Optical Modeling
TIME: Saturday from 2:45pm to 2:50pm at Center 1

CATEGORY: Basic Science
TITLE: Effect of Pseudo-ceramide Moisturizer on Barrier Integrity and Treatment of Winter Xerosis
TIME: Saturday from 2:50pm to 2:55pm at Center 1

CATEGORY: Basic Science
TITLE: Evaluation of curcumin nanoparticles as a potential therapeutic for wounds
TIME: Saturday from 2:55pm to 3:00pm at Center 1
**CATEGORY:** Basic Science  
**TITLE:** Evaluation of the antibiotic properties of glutathione  
**TIME:** Saturday from 3:00pm to 3:05pm at Center 1

**CATEGORY:** Basic Science  
**TITLE:** Inter and intrapersonal changes in the skin microbiome from infancy to adulthood  
**TIME:** Saturday from 3:05pm to 3:10pm at Center 1

**CATEGORY:** Basic Science  
**TITLE:** S-nitroso-N-acetylcysteine nanoparticles: an innovative nitrosating agent for the treatment of dermatologic disease  
**TIME:** Saturday from 3:10pm to 3:15pm at Center 1

**CATEGORY:** Basic Science  
**TITLE:** The role of soluble adenylyl cyclase in RAF regulation  
**TIME:** Saturday from 3:15pm to 3:20pm at Center 1

**CATEGORY:** Surgery - Cosmetic  
**TITLE:** A Single Center Trial to Evaluate the Efficacy and Tolerance of a Tightening Treatment on Females with Mild, Loose Skin on the Back Thighs/ Lower Buttocks and Abdomen  
**TIME:** Saturday from 3:25pm to 3:30pm at Center 1

**CATEGORY:** Surgery - Cosmetic  
**TITLE:** Facial morphea treated with autologous fat cell transplant  
**TIME:** Saturday from 3:30pm to 3:35pm at Center 1

**CATEGORY:** Surgery - Cosmetic  
**TITLE:** Fibrosis following high-intensity focused ultrasound for lipolysis  
**TIME:** Saturday from 3:35pm to 3:40pm at Center 1
CATEGORY: Surgery - Cosmetic
TITLE: Plane Xanthomas in a Child Treated Successfully with Focal 35% TCA Peel
TIME: Saturday from 3:40pm to 3:45pm at Center 1

CATEGORY: Surgery - Cosmetic
TITLE: Topical application of Lipophilic Anhydrous Gel rich in Vitamin E in the management of scars in patients surgically treated for neck cysts
TIME: Saturday from 3:45pm to 3:50pm at Center 1

CATEGORY: Surgery - Dermatologic
TIME: Saturday from 3:50pm to 3:55pm at Center 1

CATEGORY: Surgery - Dermatologic
TITLE: Barbed sutures for dermatologic surgery
TIME: Saturday from 3:55pm to 4:00pm at Center 1

CATEGORY: Surgery - Dermatologic
TITLE: Novel treatment of extensive unilateral epidermal nevus with high-frequency electrosurgery and CO2 laser
TIME: Saturday from 4:00pm to 4:05pm at Center 1

CATEGORY: Surgery - Dermatologic
TITLE: Outcomes of Keloid Surgery: A 5-year Retrospective Review
TIME: Saturday from 4:05pm to 4:10pm at Center 1

CATEGORY: Surgery - Dermatologic
TITLE: Reduction of Connective Tissue Growth Factor (CTGF) by an RNA Interference (RNAi) Mechanism as a Potential Treatment for Fibrotic Skin Indications
TIME: Saturday from 4:10pm to 4:15pm at Center 1
CATEGORY: Surgery - Dermatologic
TITLE: RXI-109 Reduces a Key Component of Dermal Scarring, Connective Tissue Growth Factor (CTGF) mRNA, in a Multi-dose Phase 1 Clinical Trial
TIME: Saturday from 4:15pm to 4:20pm at Center 1

CATEGORY: Surgery - Dermatologic
TITLE: Spontaneous disseminated pyogenic granulomas: Case report and review of the literature
TIME: Saturday from 4:20pm to 4:25pm at Center 1

CATEGORY: Surgery - Dermatologic
TITLE: The RNAi Compound RXI-109 Reduces Connective Tissue Growth Factor (CTGF), a Key Component of Dermal Scarring, at Incision Sites in a First-in-Human Phase 1 Clinical Trial
TIME: Saturday from 4:25pm to 4:30pm at Center 1

CATEGORY: Surgery - Dermatologic
TITLE: The useful of topical application of Lipophilic Anhydrous Gel rich in Vitamin E
TIME: Saturday from 4:30pm to 4:35pm at Center 1

CATEGORY: Surgery - Dermatologic
TITLE: Titanium Mesh in Reconstructive Surgery of the Nasal Pyramid. Follow-up of Our 11 First Cases.
TIME: Saturday from 4:35pm to 4:40pm at Center 1

CATEGORY: Surgery - Dermatologic
TITLE: To Bevel or Not To Bevel?
TIME: Saturday from 4:40pm to 4:45pm at Center 1

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: 229 consecutive patients at an academic dermatology clinic for oncology patients: The Yale Oncodermatology Clinic Experience
TIME: Saturday from 8:00am to 8:05am at Center 2
CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: A case of Spitz nevus on the perianal area of a child
TIME: Saturday from 8:05am to 8:10am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: A case series review of an Unexplained Dermopathy, commonly known as Morgellons.
TIME: Saturday from 8:10am to 8:15am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: A first case of pachydermoperiostosis associated with acromegaly and chronic infection hepatitis B virus
TIME: Saturday from 8:15am to 8:20am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: A fleshy, ulcerated vulval growth.
TIME: Saturday from 8:20am to 8:25am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: A retrospective review of 22 cases of cutaneous vasculitis
TIME: Saturday from 8:25am to 8:30am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Adalimumab Treatment is Associated with Pain Reduction in Patients with Hidradenitis Suppurativa, Irrespective of the Presence of Depression: Results from a Phase 2, Randomized, Placebo-Controlled Trial
TIME: Saturday from 8:30am to 8:35am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Allergic contact dermatitis exacerbating primary cutaneous sarcoidosis
TIME: Saturday from 8:35am to 8:40am at Center 2
AN OBSERVATIONAL STUDY ON THE MANAGEMENT OF ROSACEA IN PRIVATE PRACTICE
TIME: Saturday from 8:40am to 8:45am at Center 2

An unusual differential for Non-melanoma skin cancer on the dorsum of a hand: superficial cutaneous Actinomycosis
TIME: Saturday from 8:45am to 8:50am at Center 2

Anatomy of a Skin Biopsy: a retrospective analysis of outpatient biopsy results from 2000-2010
TIME: Saturday from 8:50am to 8:55am at Center 2

Benign cutaneous Degos disease
TIME: Saturday from 8:55am to 9:00am at Center 2

Bier's spots: a case report
TIME: Saturday from 9:00am to 9:05am at Center 2

Bullous fixed drug eruption mimicking Stevens Johnson Syndrome
TIME: Saturday from 9:05am to 9:10am at Center 2

CASE REPORT: CHURG-STRAUSS SYNDROME ASSCIATED WITH WELL’S SYNDROME
TIME: Saturday from 9:10am to 9:15am at Center 2
CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Clinical perspectives of mastocytosis: A patient survey
TIME: Saturday from 9:15am to 9:20am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Co-morbidities of hidradenitis suppurativa in a large patient care database: a case-control analysis
TIME: Saturday from 9:20am to 9:25am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Concomitant fibrosing disorders in childhood
TIME: Saturday from 9:25am to 9:30am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Cutaneous Involvement of Multiple Myeloma Mimicking Kaposi Sarcoma
TIME: Saturday from 9:30am to 9:35am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Cutaneous Loxoscelism: a diagnosis to consider
TIME: Saturday from 9:35am to 9:40am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Delusional infestation presenting with shared delusions: treatment outcomes from a case series
TIME: Saturday from 9:40am to 9:45am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Dermatitis herpetiformis: an entity probably underdiagnosed
TIME: Saturday from 9:45am to 9:50am at Center 2
**CATEGORY:** Clinical Dermatology & Other Cutaneous Disorders  
**TITLE:** Development of a standardized experimental itch model in humans  
**TIME:** Saturday from 9:50am to 9:55am at Center 2

**CATEGORY:** Clinical Dermatology & Other Cutaneous Disorders  
**TITLE:** Drug-induced lichen planus pemphigoides  
**TIME:** Saturday from 9:55am to 10:00am at Center 2

**CATEGORY:** Clinical Dermatology & Other Cutaneous Disorders  
**TITLE:** Efficacy Results Using a Novel Hidradenitis Suppurativa Endpoint, HiSCR (Hidradenitis Suppurativa Clinical Response), From the Placebo-Controlled Phase of a Phase 2 Adalimumab Study  
**TIME:** Saturday from 10:00am to 10:05am at Center 2

**CATEGORY:** Clinical Dermatology & Other Cutaneous Disorders  
**TITLE:** Evaluation of Micro-focused Ultrasound with Visualization (MFU-V) for Lifting and Tightening of Facial and Neck Skin Laxity Using a Customized, High-Density and Vectoring Treatment Approach  
**TIME:** Saturday from 10:10am to 10:15am at Center 2

**CATEGORY:** Clinical Dermatology & Other Cutaneous Disorders  
**TITLE:** Evaluation of the Safety and Effectiveness of Micro-focused Ultrasound with Visualization (MFU-V) for the Treatment of Erythematotelangiectatic Rosacea.  
**TIME:** Saturday from 10:15am to 10:20am at Center 2

**CATEGORY:** Clinical Dermatology & Other Cutaneous Disorders  
**TITLE:** Facial Becker’s Naevus associated with fibrous dysplasia and facial asymmetry  
**TIME:** Saturday from 10:20am to 10:25am at Center 2

**CATEGORY:** Clinical Dermatology & Other Cutaneous Disorders  
**TITLE:** Facial Lumps and Bumps  
**TIME:** Saturday from 10:25am to 10:30am at Center 2
CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Gardner Diamond Syndrome
TIME: Saturday from 10:30am to 10:35am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Giant cell tumor of the hand: A case report
TIME: Saturday from 10:35am to 10:40am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Grover’s disease associated with chemotherapy
TIME: Saturday from 10:40am to 10:45am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Idiopathic Lipoatrophic Panniculitis in an Adult
TIME: Saturday from 10:45am to 10:50am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Imiquimod 2.5% and 3.75% for the treatment of external genital warts: additional insights into efficacy
TIME: Saturday from 10:50am to 10:55am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Imiquimod 2.5% and 3.75% for the treatment of external genital warts: assessment of efficacy in 981 randomized patients
TIME: Saturday from 10:55am to 11:00am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Imiquimod 2.5% and 3.75% for the treatment of external genital warts: assessment of safety in 981 randomized patients
TIME: Saturday from 11:00am to 11:05am at Center 2
CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Imiquimod 2.5% and 3.75% for the treatment of external genital warts: gender differences in a study of 981 randomized patients
TIME: Saturday from 11:05am to 11:10am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Indeterminate Histiocytosis
TIME: Saturday from 11:10am to 11:15am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Innovative Treatment Option for Moderate-to-Severe Generalized Psoriasis Using 308 nm Excimer Laser, Clobetasol Spray, and Calcitriol Ointment
TIME: Saturday from 11:15am to 11:20am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Interesting Cases from Stony Brook University Department of Dermatology
TIME: Saturday from 11:20am to 11:25am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Juxtaarticular Cutaneous Hemangiolympangioma
TIME: Saturday from 11:25am to 11:30am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Langerhans Cell Histiocytosis and Hematological Malignancy: A Mayo Clinic Experience
TIME: Saturday from 11:30am to 11:35am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Lupus miliaris disseminatus faciei: Report of response to isotretinoin and literature review of treatment options
TIME: Saturday from 11:35am to 11:40am at Center 2
CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Malignant Fibrous Histiocytoma: An Evaluation of What Lies Beneath
TIME: Saturday from 11:40am to 11:45am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Metastatic meningioma of the scalp: Case report and detailed discussion
TIME: Saturday from 11:45am to 11:50am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Methotrexate-induced skin necrosis in a patient with atopic dermatitis
TIME: Saturday from 11:50am to 11:55am at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Mid-dermal elastolysis: A case-report and review of the literature
TIME: Saturday from 11:55am to 12:00pm at Center 2

CATEGORY: Clinical Dermatology & Other Cutaneous Disorders
TITLE: Multinucleated cell angiohistiocytoma: A case report and literature review
